

afelschool

AFELSCHOOL is the School Information Management System, a web-based application software designed to introduce a conducive and structured information exchange environment for integrating students, parents, teachers and the administration of a school or college.

AFELSCHOOL provide capabilities for registering students in courses, documenting grading, transcripts, results of student tests and other assessment scores, tracking student fee payments and managing many other student-related data needs in a school.

The **AFELSCHOOL** is deployed as a Web Application; and allows remote access for staff, parents and students as well.

AFELSCHOOL has been very successful in providing services to many primary and secondary schools in Tanzania. Some of the schools that use this system are **Bagamoyo Secondary School, Rungwe Secondary School, John Merlin Secondary School, Maria de Mattias Pre & Primary school, Maria de Mattias Secondary School, St Gaspar Pre & Primary School etc.**

Also, **AFELSCHOOL** is currently being used to process results and generate report of Form Four Mock Examinations in Dodoma City Council and some joint examinations in Mbeya Region.

AFELSCHOOL FEATURES

- **Students' admission and store records.**
 - Register, store and access student information easily from admitted to graduate.
- **Staff's management.**
 - Register and assign titles and activities to all staffs.
- **Manage and store students' academic records.**
 - All academic records will be stored and can be accessed easily.
- **Timetable.**
 - Create and manage your timetables easily.
- **Student attendance and evaluation records.**
 - Collect all student's attendance and evaluation.

- **Process results and generate printable reports.**
 - Process and generate monthly tests, midterm tests and terminal/annual results. Results can be printed or sent to parents through emails or SMS or parents can view results to afelschool website online.
- **Finances management and reports.**
 - Manage and store all financial records from student's fee, expenses, income or any other and generate their reports.
- **SMS notifications.**
 - Send SMS notification to parents, staffs or customized groups. SMS can be exam/monthly results, school meeting, student emergence, school fee debt reminder or any other.
- **Access level.**
 - Allows a system administrator to set up a hierarchy of users. Thus, the low-level users can access only a limited set of information, whereas the highest-level users can access the most sensitive data on the system.
- **Dashboard.**
 - An easy to read, real-time user interface, showing a graphical presentation of the status and historical trends of the school activities.

ADVANTAGES OF AFELSCHOOL

- Reduces workload of processing student related data.
- Easy of reporting mechanism, thus any report can be easily generated
- Help in data sharing between school staffs and students' parents
- It increases data integrity and confidentiality
- Save time and cost.

AFELSCHOOL REQUIREMENTS

- A working Internet plan for connectivity.
- End devices such as Computers or tablets
